LEARN TO SOLVE PROBLEMS

Tennis is a sport that is based on evaluating angles, geometry and physics to get the best result, which translates into better problem-solving off the court.

In the late 1990s, several experts proposed that tennis, since it requires alertness and tactical thinking, may generate new connections between nerves in the brain and promote a lifetime of continuing brain development. This was supported in John Ratey's book "Spark." Ratey was quoted in USA Today as saying, "A heart-thumping game of tennis can keep the brain in top shape."
